To Whom It May Concern,

We wanted to express ourselves in an appropriately Jewish way. **“Todah” and “Zeh Hayah Chavaya Nif-la-ah”** means **“Thank you” and “This was an amazing experience”**.

We hired Ward because of their excellent track record with synagogues and their consistent ability to build all of their projects on time and on budget. Throughout the entire process we were very impressed with Ward’s thoroughness, integrity and team approach.

We greatly appreciated Ward’s abilities to construct our beautiful new home and allow us to move in as promised after 4 short months with enough time for us to set up without the stress of doing everything at the last minute.

The site superintendent Greg Thompson did a remarkable job incorporating all of the projects teams changes both ongoing and last minute, by keeping the subcontractors informed with the necessary communication. Both Stan Ward and Paul Sommer worked very patiently with our team and diligently on the project requirements to keep the job both on time and on budget by consistently offering solutions that kept us on track. The entire process benefitted from Ward’s experience and their ability to communicate in a non-technical way.

When challenging issues arose Ward conducted themselves in a very professional manner and offered reasonable solutions to help us solve the issues to our satisfaction. We know that we can count on Ward well after the project is done to step in and help us solve issues that other contractors are often quick to not want to resolve.

I would strongly recommend Ward to any potential clients that are considering their services.

Sincerely

Rabbi Avraham Mintz,
Director of the Chabad Jewish Center
